PROFESSIONAL SUMMARY

Flutter Developer and MCA candidate with hands-on internship experience building production-grade cross-platform mobile applications using Flutter, Dart, and Node.js. Proficient in REST API integration, Clean Architecture, Material 3 UI, and scalable backend development. Delivered a multi-tenant SaaS platform for daycare centers and preschools. Passionate about responsive design, performance optimization, and writing maintainable code that ships fast and scales further.

TECHNICAL SKILLS

Languages : Dart, Python, SQL
Mobile Development: Flutter, Android, iOS
State Management : Provider, Riverpod, BLoC
Backend & APIs : REST APIs, JWT, JSON, HTTP
Architecture : Clean Architecture, MVVM
Local Storage : SQLite, Drift, SharedPreferences
Tools & CI/CD : Git, GitHub Actions, Figma, VS Code, Postman

EXPERIENCE

Flutter Developer Intern March 2026 – May 2026 · 3 months

Inorbvict Healthcare India Pvt. Ltd. • Pune, Maharashtra · Full-Time Internship

- Designed Warehouse Management System (WMS) mobile UI/UX screens using Figma.
- Developed basic Flutter UI screens to support the conversion of existing warehouse software into a mobile application.
- Created reusable UI components and layouts in Flutter for consistent screen design.
- Worked on user flows and screen navigation, ensuring a smooth and intuitive mobile experience.
- Collaborated with the team to refine layouts, UI designs, and functionality based on project requirements.

PROJECTS

AI Expense Scanner App • GITHUB

Flutter • Dart • Riverpod • GoRouter • Drift (SQLite) • Material 3

- Developed an AI-powered expense tracking app using Flutter, Dart, Riverpod, and Material 3, following a feature-based architecture.
- Implemented OCR-based receipt scanning using Google ML Kit to extract expense details and integrated Gemini AI for financial insights and assistance.
- Built expense management, analytics dashboard, duplicate expense detection, Firebase authentication, and offline-first local storage using Drift (SQLite).
- Tech Stack : Flutter, Dart, Riverpod, GoRouter, Drift (SQLite), Firebase Authentication, Google ML Kit, Gemini AI, fl_chart

Smart Hydration & Water Reminder App • GITHUB

Flutter • Dart • Provider • SQLite (sqflite)

- Developed an offline-first hydration tracking app using Flutter, Dart, Provider, SQLite, and Material 3 with personalized daily water goals based on user weight.
- Implemented smart water reminders and local notifications, with customizable reminder intervals, wake/sleep schedules, and automatic hydration tracking.
- Built analytics, hydration history, streaks, achievements, bottle presets, and light/dark theme support with persistent local data storage.
- Tech Stack : Flutter, Dart, Provider, SQLite (sqflite), SharedPreferences, Local Notifications, Material 3, fl_chart

EDUCATION

Master of Computer Applications (MCA) — Computer Science Aug 2024 – Jun 2026

- Sinhgad Institute of Management, Pune · Savitribai Phule Pune University

Bachelor of Computer Applications (BCA) Jun 2019 – Oct 2022

- Savitribai Phule Pune University, Pune
